Professional Summary

Software Engineer with 1.5+ years of experience building and modernizing web solutions using .NET, React.js, SharePoint, and Microsoft Power Platform, with a focus on automation and data-driven applications.

Technical Skills

Languages: C#, JavaScript, TypeScript, Python, Java

Front-End: HTML5, CSS3, React.js, Next.js, Bootstrap

Back-End: .NET Core, ASP.NET MVC, Node.js

Databases: SQL Server, MySQL, MongoDB

Microsoft Tools: SharePoint, Power BI, Power Automate, Power Pages

Version Control & DevOps: GitHub, Bitbucket, Azure DevOps

Work Experience

Software Engineer | KalSoft Pakistan

Aug 2025 – Present

- Developed and optimized **React.js** and **.NET applications**, improving performance and maintainability.
- Delivered **HR dashboards**, enabling management to track **KPIs** and make data-driven decisions.
- Automated key **business workflows** using **Microsoft Power Platform**, reducing manual effort.

Software Engineer | Mazen Pakistan (Internship)

Jan 2025 – May 2025

- Built and maintained **internal applications** with **ASP.NET Web Forms** and **MVC**.
- Implemented **database-driven features** using **C#** and **SQL**.

Software Engineer | The Blue Digitals (Internship)

Sep 2024 – Dec 2024

- Developed key modules in a **.NET Core e-commerce platform**, including authentication and order processing.
- Optimized **backend performance** and fixed **critical bugs**.

Projects

Xprecon — Real Estate Web Platform (React.js, Next.js, JavaScript, HTML, CSS)

- Developed a **production-ready web platform** with **server-side rendering** and optimized navigation (xprecon.com).

KalSoft — Corporate Web Platform Migration (React.js, JavaScript, HTML, CSS)

- Migrated legacy PHP platform to **React.js**, improving **scalability**, **maintainability**, and frontend performance (kalsoft.com).
- Performed **SEO optimization** and content restructuring, enhancing search visibility and attracting more client traffic.

HR Analytics & Reporting System (Power BI, SQL Server, SharePoint)

- Built **interactive dashboards** to transform HR data into **decision-ready insights** ([GitHub](https://github.com)).
- Implemented **dynamic KPI tracking** and automated reporting, enabling management to monitor trends.

CCAT — Charity Management System for Catholic Charities (ASP.NET MVC, C#, SQL Server, HTML, CSS, JavaScript)

- Fixed **production-level form issues** and optimized backend workflows for **reliable donor management**.

Venue Verse — Event Booking Platform (FYP) (MongoDB, Express.js, React.js, Node.js)

- Full-stack platform for booking venues with **role-based flows** and **real-time availability**.

Certifications

- React.js — Udemy
- Power BI — PluralSight

Education

B.Sc. Software Engineering — Sir Syed University of Engineering and Technology

Oct 2021 - Aug 2025
