Gujranwala, Pakistan

Summary

A highly resourceful, flexible and enthusiastic individual who as an ambitious Civil Engineer enjoys the challenge of working across a broad range of sectors. I want to experience to take leadership on major projects in key areas such as Quantity, quality control. Right now i would like to work for an employer that is looking for talented, committed and ambitious people to help them shape the future of their company

Skills

Supervision Siklls | Solar Panel structure Mounting | Reporting Abilities | Quantity Take-offs | Quality Inspection | Quality Control | PMP | MS Office | Iso 9001 2015 | Construction Site Management | Construction Management | Civil Supervistion | AutoCad

Experience

Feb 2022 - Present

Sub Engineer

DHA Gujranwala, Gujranwala, Pakistan

- Proficiently oversaw the construction of overhead water tanks, ensuring the reliable supply of water resources for the project.
- Provided oversight for the construction of the DHA (Defence Housing Authority) Office Complex Building, ensuring its completion to high-quality standards, including MEP works.
- Maintained effective communication by regularly reporting project progress and updates to the project engineer, facilitating project coordination and alignment.
- Led the construction of security watchtowers and boundary walls, enhancing safety and security measures at the project site.
- Successfully supervised the construction of stormwater drain systems, preventing flooding and ensuring proper drainage within the project area.
- Managed and supervised the sewage system, ensuring efficient operation and compliance with established standards.
- Reviewed and responded to RFIs (Request for Information) to ensure clarity in project execution and design interpretation.
- Prepared Daily Progress Reports (DPRs) to monitor work progress and keep stakeholders informed.
- Maintained accurate documentation of site activities, material usage, and manpower deployment for effective project tracking and control.

May 2021 - Jan 2022

Civil Supervisor

Reon Energy Limited, Chakwal, Pakistan

- Effectively managed site supervision for a combined project spanning 14.847 MWp in Kallar Kahar and 4.5 MWp in Haripur, ensuring project milestones were achieved on schedule.
- Led the construction of the Central Control Room (CCR) building, overseeing all aspects from planning to execution.
- Maintained rigorous quality control standards by meticulously inspecting

and assuring the quality of construction work, resulting in high-quality project outcomes.

- Proficiently managed site layouts and demarcation, optimizing the use of available space and resources for efficient project execution.
- Oversaw the piling and precise installation of solar panels, contributing to the successful harnessing of solar energy resources.
- Supervised the installation of solar panel structures, ensuring secure and efficient mounting for optimal energy generation.

May 2017 - Nov 2019

Sub Engineer

Military Engineering Services, Gujranwala, Pakistan

- Effectively managed the construction of residential flats for Soldiers, Junior Commissioned Officers (JCOs), and Officers, ensuring on-time project delivery while upholding quality standards.
- Meticulously optimized site layouts to maximize space utilization and facilitate the seamless execution of designs.
- Conducted comprehensive quality inspections, ensuring construction materials and workmanship consistently met or exceeded industry benchmarks, resulting in top-tier project outcomes.
- Fostered effective collaboration by delivering regular project updates and reports to both the Sub-Divisional Officer (SDO) and Garrison Engineer (GE), ensuring transparency and alignment throughout the project.
- Successfully supervised the Chief of Army Staff Accommodation Maintenance Project (CAMP), ensuring the seamless execution of critical upgrades and enhancements within budget and on schedule.

Oct 2016 - Apr 2017

Site supervisor

Zafar &Co, Gujranwala, Pakistan

- Managed site supervision for specific number construction projects, ensuring adherence to safety protocols, quality standards, and project timelines.
- Proficient in performing precise layouts and demarcations, contributing to error-free construction processes and minimizing project delays.
- Led a team of number site personnel, providing guidance and ensuring seamless coordination between various construction phases.

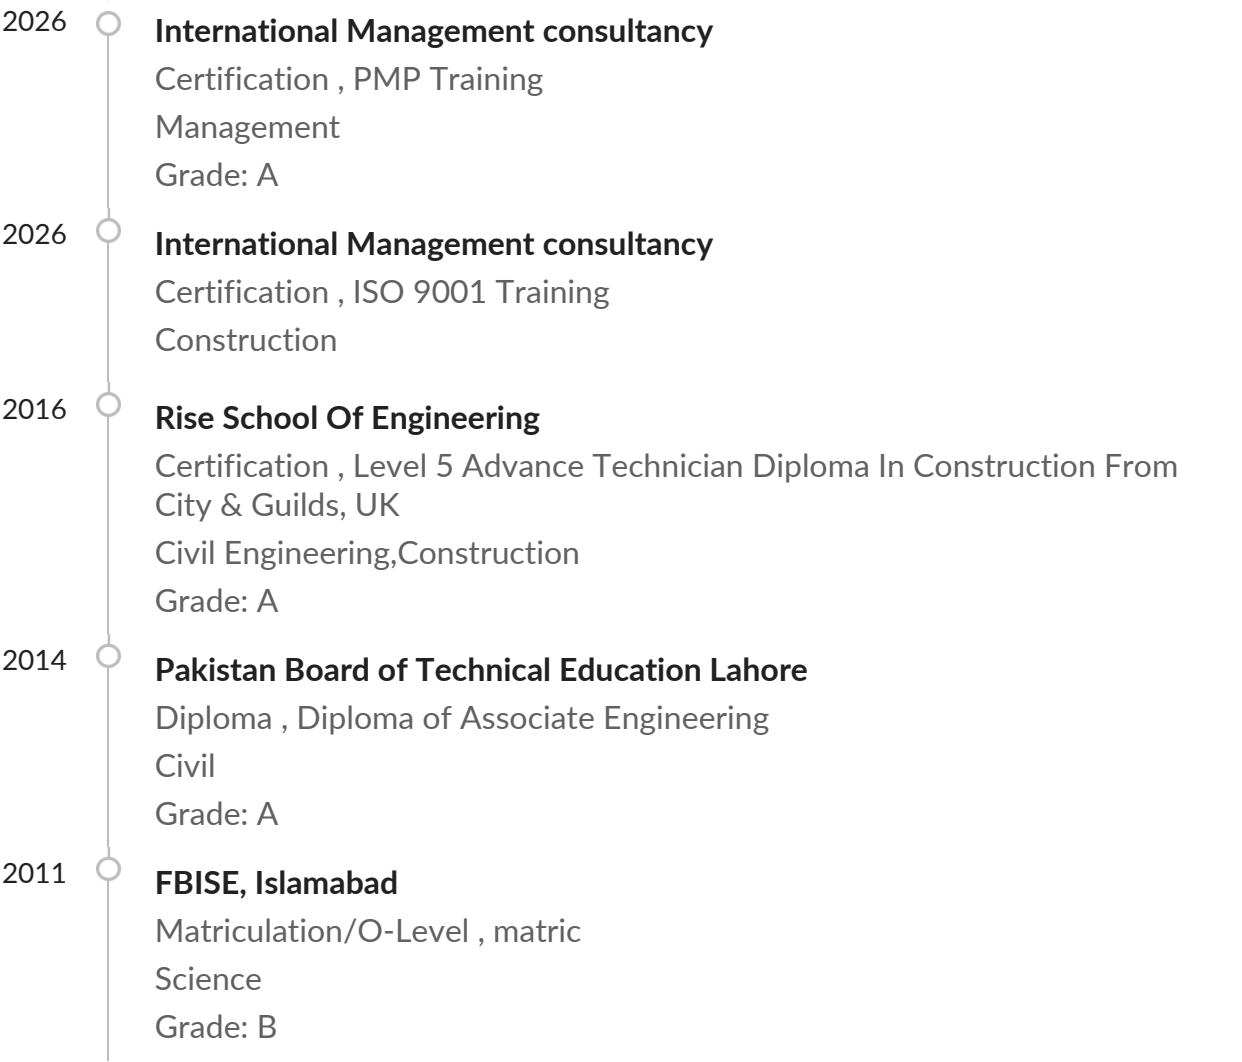

Jul 2014 - Apr 2015

Sub Engineer

Military Engineering Services, Gujranwala, Pakistan

- Diligently oversaw site layouts, optimizing space utilization and ensuring efficient design implementation.
- Proficiently supervised the construction of Soldiers, Junior Commissioned Officers (JCOs), and Officers' flats, ensuring adherence to project timelines and quality standards.
- Accurately estimated material quantities required for construction projects, aiding in budgeting and resource management.
